Translation

In over 20 years of professional experience I have translated automotive user manuals and service bulletins, air conditioner operation/maintenance manuals, smartphone guides and user manuals, software help files, electrical testing tool control software, business contracts, quality control system software, technical and marketing press releases, tourist brochures. I regularly work with several Italian and International LSPs, among which Languagewire AS, SDL International and MTT (UK), as well as with direct clients such as Renishaw Plc. I have worked directly with Kaspersky Labs as a localization partner and with the local Tirreno Power power plant - Vado Ligure (I) on calls for international bids and English technical documents.

Interpreting

I have worked as simultaneous interpreter for Interlogos, a former LSP based in Savona, and as face-to-face interpreter both for the local police station and for the Court of Savona. I have worked as interpreter in maintenance and operation training courses on CNC machines held at precision engineering firms such as the former Piaggio Aerospace factory in Finale Ligure (I) and Fiat Avio in Naples. I have worked as interpreter for Mr. Richard Stallman – founder of the Free Software Foundation – in several conference meetings.

Education and training

1985	Qualified electrotechnical engineer - I.T.I.S. Savona (I)
1992	Proficiency In English – Cambridge University (UK)
2007	Diploma in Translation – Chartered Institute of Linguists (UK)
2007/2008	Postgraduate diploma in Interpreting - London Metropolitan University (UK)

Personal skills and competences

Mother tongue

**Italian
English ⁽¹⁾**

1) Thanks to family ties in England (Chester), I learnt English when I was three years old and I am perfectly bilingual

Organisational skills and competences

Since I started working as a freelancer, I have gained self-rigorousness and self-discipline as well as good analytical, problem-solving and time-planning abilities, which allow me to always meet the deadlines or cut unforeseen delays beyond my control to a minimum.

Computer skills and competences

I can take care of my PCs' software and hardware, and I can usually solve possible problems without referring to external resources, reducing downtime to a minimum. I am an advanced user of the latest version of RWS Trados Studio and reasonably proficient with all other major CAT tools such as MemoQ and MemSource. I can handle HTML and XML formats.
