Client testimonial

«Marianne is an exceptional translator and transcreator, equally comfortable with technical and creative work. I've been working exclusively with her for Norwegian projects for many years now, and I know I can count on her completely for the highest quality work. She combines incredible attention to detail with bags of experience and great linguistic skill - and her suggestions for improvements are always spot on as well. I recommend Marianne wholeheartedly; she would be a first-class addition to any project.» (from a mobile games client - see my [LinkedIn profile](#) for this and more testimonials)
