RECENT WORK EXPERIENCE

Sept 2001 - present

I am a qualified translator with many years' experience. Initially I worked as a technical translator in market research (medical and pharmaceutical), but over the last 10 years I have been working more extensively in the business and finance sectors, mainly in relation to financial statements, financial annual reports and other financial and statutory disclosures of Italian corporations, an area in which I have gained significant experience.

In recent years my work has drastically shifted from translation to MTPE, an area in which I now specialise and which accounts for more than 90% of my work.

I work exclusively with translation agencies, mostly agencies located or with offices in Italy, including Welocalize, LawLinguists, Isselnord, CMT, Acolad and Athenas Parthenos.
