Gosia Glowacka MA MCIL CL MITI

Your Polish Linguist

1 Who am !?

A Polish translator, proofreader, consultant, and copywriter.

When I'm not translating the latest brochure for HP or making the world a "safer place" with Durex, I cook spicy meals, train triathlon and dabble in self-development.

Having gained invaluable **experience** in a number of translation agencies and various positions, I have a **deep understanding** of all the processes from many perspectives.

In other words, I know how things work - so you don't have to.

Thanks to me you gain access to 10+ years of experience working for top international and local brands, like Google, Nike, and Emirates.

You also get feedback on your **source content**, adaptation to the needs of the **Polish audience** and **technical know-how**. Not to mention a friendly face.

Can this get any better? It can! Since I work in a tandem, you have a 2-linguist team in one place!

What can I do for you?

- ...and countless projects which volume spanned from one line to hundreds of thousands of words

Interests

Triathlon

I regularly participate in triathlon competitions - even managed to win some trophies (who'd expect that would happen!)

An aspiring chef, I love experimenting and spicing things up in the kitchen, especially with the Thai and Indian cuisines. I'm always on the lookout for new cooking courses and inspirations that keep my friends and family full and surprised.

Travelling

Having spent 5 years in the UK, I'm now based in Poland, Warsaw. However, thanks to the possibilities that come with the profession of a freelancer, I can travel and get to know new countries, cultures, and people.

Third

The ultimate holiday destination? Mountains (I'll also take hills) with gorgeous landscapes and steep climbs.

Gardening

A nature-lover, I'm tremendously fortunate to have a small garden where I plant and nurture flowers of different types and sizes - an inexhaustible source of pleasure and inspiration for

Books

The best prize for knowing Polish, English, Spanish, and Russian? The ability to read in all 4 languages! Novels, history, reportage, self-development, psychology... The list goes on.
